## PREFACE.

---

We wish to call particular attention to the fact that the coins in this collection are to be sold in the *evening*, instead of the afternoon, as usual. We have made this change for the convenience of gentlemen who are unable to attend auctions held in the day time, thereby giving all an opportunity of purchasing, and also of seeing what they buy. The coins will be on exhibition throughout the day in the salesroom.

In regard to the condition of the various pieces, we can assure intending purchasers at a distance that they have all been faithfully described, and in cases of the slightest doubt, the condition of the coins has, if anything, been rather under-estimated.

We would call particular attention to a few very rare coins contained in this cabinet, as well worth the attention of collector of the American series. The 1823 Quarter Dollar is much better than those usually found, and it is not likely that another opportunity to obtain this rare piece will occur again soon. The 1794 dollar, although plugged, is otherwise very good, and the 1858 Dollar is rapidly raising in price. Collectors lacking this date will do well to secure it before it becomes altogether unattainable. Among the colonial pieces the Immuno Columbia is very rare and desirable, and in very fine condition, while the NON VI VIRTUE VICI is lacking in most collections, and very seldom offered for sale. The numismatic books at the end are standard works, and should be in the possession of every collector who desires to be well informed.

To the large number of new collectors to whom this Catalogue will be sent, and who have not yet commenced to purchase their coins at auction, we would say in regard to the selling, each lot will be knocked down to the highest bidder; the lots are sold so much for each coin in it, so if you desire a lot of coins which contains ten, and you wish to pay \$1.00 for it, your bid shall be 10 cenis, which would be \$1.00 for the lot. Amateurs sending their bids in from a distance, should be very particular in regard to this. The Auctioneers, Messrs. Scott, and other dealers, will attend to the purchasing of any desired lots for parties unable to attend the sale, at a charge of ten per cent. Always state your highest price, and rely on the honor of those you employ to make the purchases for you at as low a figure as possible.

# THE COINAGES OF THE WORLD,

ANCIENT AND MODERN.

This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quartos, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

PRICE—CLOTH, \$2.50. HALF MOROCCO, \$3.50.

For sale by all booksellers, or will be sent, post free, on receipt of price, by the publishers,

## CRITIQUES.

*The New York Times of December 27th, says:*

"What every student of Coinages—not the mere collector of old coins—wants to know."

*The New York World of November 27th, says:*

"Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference."

*The New York Evening Post of November 29th, says:*

"A work of great interest to numismatists and collectors of coins. \* \* \* The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries."

*The New York Daily Graphic of December 23d, says:*

"Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference."

*The American Journal of Numismatics of January 1st, says:*

"This is an octavo volume of 306 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quartos of the old writers, which has yet appeared."

*The Coin Collector's Journal of January 1st, says:*

"This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of Aegina, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from Græcia Magna to Rome, and so down through the Byzantine Empire to Medieval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed; in fact, it is more than a coin book, it is a short history of the world, and should be in every house."

# THE COIN COLLECTOR'S JOURNAL.

SPLENDIDLY ILLUSTRATED.

A 16-PAGE MONTHLY. \$1.00 PER YEAR, POST FREE.

In forwarding to our subscribers THE COIN COLLECTOR'S JOURNAL for January, 1878, at the commencement of the third volume, we would take the opportunity of thanking our patrons for past favors, and urge them to continued exertions to increase the circulation of the Journal. As it is the largest numismatic monthly published in the United States, and as it has now attained a more extensive circulation than any other paper devoted to the interests of coin collectors, we think it is for the interest and advantage of subscribers to do something to increase its influence.

We would remind our friends that by increasing the circulation of the Journal, the number of collectors will doubtless be much increased, and, as the number of coins is limited, the additional demand will greatly enhance the value of all collections.

The publishers have never expected to realize any profit from the subscription list; all that they hope for is to make the C. C. J. a self-sustaining means of communication for coin collectors, and therefore feel justified in looking to those benefited by it to do something to add to its usefulness in the future.

We give annexed a few reasons why every coin collector should become a subscriber:

For prices realized at every **Auction Sale of Coins** in the United States during the last two years—see *The Coin Collector's Journal*.

For the fullest illustrated description of the **Centennial Medals**—see *The Coin Collector's Journal*.

For a complete illustrated description of all the **Copper Money** issued in England—see *The Coin Collector's Journal*.

For fine illustrations of **Old Roman Coins**—see *The Coin Collector's Journal*.

For illustrations of **Chinese Cash**, with translations of all the Chinese characters found on the coins for the last two hundred years—see *The Coin Collector's Journal*.

For good illustrated description of **Old English Silver Coin**—see *The Coin Collector's Journal*.

For fine illustrations of **Modern Foreign Copper Coins**—see *The Coin Collector's Journal*.

For a full history of the **Byzantine Coins**—see *The Coin Collector's Journal*.

For illustrated descriptive articles on **French Colonial Copper Coins**—see *The Coin Collector's Journal*.

For a full description of all **United States Fractional Currency**—see *The Coin Collector's Journal*.

For a complete chronological list of all the **Roman Emperors**—see *The Coin Collector's Journal*.

For a fine engraving of the magnificent **Canadian Confederation Medal**—see *The Coin Collector's Journal*.
